

# The Problem: Chewing Gum...

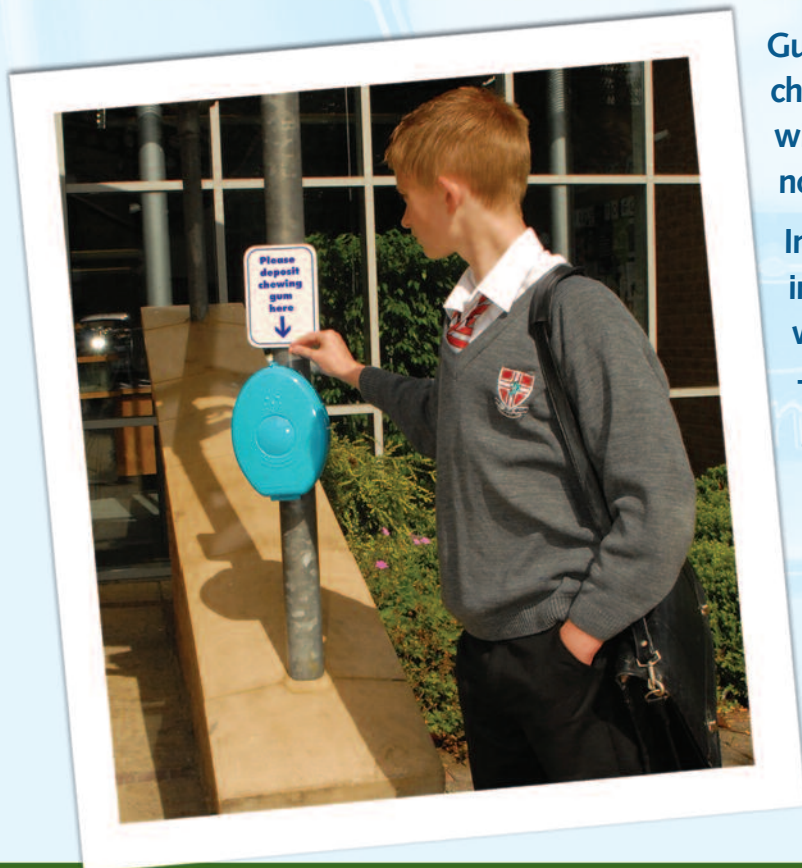

...stuck to floors, desks, chairs and uniforms, expensive to remove, blighting the appearance of school buildings.

**Fact:** A single piece of gum which costs 3 pence to buy can cost up to **£1.50** to clean up!

## The Solution:

# GUMMYBINS™

Gummybins™ provide a breakthrough in solving the chewing gum problem. Appealing and quirky, but with serious proven effects. It's about prevention, not cure.

Independent results by DEFRA saw a **72%** reduction in chewing gum litter where Gummybins™ were installed.

The Gummybin™ offers children, young people and adults a convenient, fun way to dispose of their chewing gum responsibly.

A typical installation in and around school grounds will collect approx **2,500** pieces of gum per annum.
